Spring 2026

Heating up for the Summer

Spring is a time for growth and nourishment, and this is no different for Content at CybSafe.

We've been upturning soil and watering the buds of some incredible features. Some, like AI translation signposting and bitesize learning, are already blooming. Some will take a little longer, but oh! how beautiful our garden shall be.

That's not to say there aren't plenty of wonderful new flowers to see. But don't take our word for it. Check for yourself!

Go on. Stop and smell the roses.

See you in August!

The CybSafe Content team

What's new

Accredited Bitesize learning

Our 12 new Essential Bitesize modules are now accredited by the NCSC and CPD. Deliver them using Workflows.

PHISH update

30 new 'Hard' phishing templates covering current threats from AI billing and token usage to integration alerts.

Focus

Three new modules on Insider threats, Agentic AI and Spotting fake emails, focusing on the most critical attack vectors organisations face.

Also available as video-only.

Seasonal

34 Behaviour nudges (incl. four video nudges) and 15 new pieces of Advice covering Summertime threats, from the World Cup to International Coworking Day

Coming soon

NOW

GAI Essential videos

14 new, high-quality, high-production videos for our Essential collection.

GAI Data privacy videos

Four new, high-quality, high-production videos covering data privacy in the EU, US, UK and Germany.

CybSafe AI signposting

Clear signposting of all modules translated using CybSafe AI, with the ability to toggle them on and off.

NEXT

Learner-facing module names

No more confusion over the most up-to-date modules. A straight split in module naming conventions for learners and admins.

Admin content preview

The ability to preview module quizzes without self-assignment.

Content filtering and lifecycle management

See and assign content covering the topics and behaviours most pertinent to you. Review module updates with ease.

LATER

Interactive modules

Interactive elements for modules, as well as off-platform quizzes and refresher tests.

Bitesize Focus and Role-specific modules

Off-platform equivalents for all Focus and Role-specific modules.

Test-first learning campaigns

Intuitive learning campaigns befitting your security heroes.
